

experience warmth with natural gas fireplaces

When it gets cold and grey there is nothing that warms your house and heart like the tickling of an open fireplace. Cuddling up for a romantic evening for two in front of the dancing flames or sharing a warm toasty night with your family Genesis Gas Fires offer all this in the flick of a switch...

New Installation

Existing Chimney

Whether it be a new fireplace or the retrofit of an existing hearth, from ultra modern to traditional and period favours, our Genesis Fire will create the perfect look to complement and add value to your home.

Genesis have been manufacturing gas fireplaces for over a decade and creating your new or refurbished fireplace is simple. Our friendly staff will advise you on the best selection of materials for your desired placement and once completed you'll be enjoying all the benefits of an open fire place without the worries of solid fuel fire.

The Genesis Gas Fire uses ceramic technology to increase its radiant heat output into a room. It can be retrofitted behind an old cast iron insert or can be incorporated into a new installation. A large range of traditional and more contemporary finishes are available to suit the gas fire.

No more pipes, no more soot and no flames, you'll be able to eat up in glorious warmth with a minimum of getting home.

With a push of a button, your Genesis Fire hops into life, providing the instant warmth of a gas fire to fight back the cold. The environmentally friendly Genesis runs on both Natural or LPG gas, making it safe to heat your room all day long without affecting the health of your family or adversely affecting the atmosphere.

Remote Control Convection: The Mark II Genesis Fire now comes in a Remote Control version which enables you to adjust the heat of your burner from the comfort of your chair. This is available for both the 15" and the 27" natural gas fire.

No Chimney No Problems: The Mark II Genesis Fire is available in a Fully Approved and Tested Zero Clearance housing which allows you to quickly and simply install it without the need of a working chimney.

Warranty: Your Genesis Gas Fire is guaranteed for a period of 12 months from date of purchase.

Selling the Benchmark in Fire Safety: Genesis Gas Dual Fire have set the benchmark for the safety standards in Australia. Designed to comply with demanding US and European safety standards, the Genesis is a world class leader using state of the art Flame Suppression technology that is guaranteed to give you peace of mind. The Oxygen Depletion System ensures that if the oxygen level in the room falls, the fire is shut down automatically.
