HEATING WITH A DIFFERENCE

When you want a woodheater with a difference then Heatcharm Woodheaters are the ones to choose.

With woodheaters that display the most amazing views, like the Port Phillip with its large and stylish self-cleaning bay view window to the Victorian which combines the latest innovations in slow combustion heating with an elegant timeless design, Heatcharm woodheaters are the automatic choice if you are looking for a new woodheater with a difference.

The Heatcharm range of woodheaters can provide you with efficient woodheating for areas up to 30 squares, superior heat transfer and compliance with all EPA emission standards. They are available in a range of stylish colours (including reds and greens as well as the traditional black and brown), in freestanding and inbuilt heaters.

Heatcharm woodheaters are beautifully engineered and will set your senses soaring. Choose the woodheater with a difference.

COVER PHOTO

The freestanding Port Phillip C-600, illustrated with optional gold door, is a charming combination of style and function. Optional gold trims (not illustrated) are also available.

THE VICTORIAN

When you combine the latest technology in slow combustion heating with the elegance of a design that is timeless – you have the Victorian. The efficient design and 3 speed fan will provide clean, safe and warmth for up to 30 squares. Illustrated above: 1-800, cast iron surround and Victorian mantle.

HEATING WITH A DIFFERENCE

STAINLESS STEEL

ANY DULUX COLOUR AVAILABLE ON REQUEST. ASK YOUR LOCAL DEALER FOR DETAILS.

Please note: Due to the nature of the printing process, colors may vary from those shown in this brochure. Ask your dealer to show you a color sample.

NO FIREPLACE NECESSARY

With Heatcharm Zero Clearance Z Box, you can install a Heatcharm woodheater without the need of a conventional brick fireplace and chimney. The Z Box allows you to install inbuilt woodheater directly onto a floor using the floor plate/hearth which can be supplied with your Z Box heater. Detailed installation instructions, with clearances to combustible materials, are available from your Heatcharm dealer.

Timber framework partially cld with 12mm Villa Board

C-500	300	100	75	400	100

HEATING AREAS

Important: Heating areas provided are based on open plan living areas and 2.4 metre ceiling height.
Note: Lack of insulation, large window areas and cathedral ceilings reduce heating efficiency.

ENVIRONMENTAL & EFFICIENCY STANDARDS

Heatcharm heaters comply with Australian Standards AS/NZ4012:1999 & AS/NZ4013:1999, Power, Performance and Emissions.

WARRANTY

There is a 10 year warranty on the firebox and a 12 month warranty on all other components.
Glass excluded.

Based on our current state of knowledge, all of the information contained in this brochure was correct at the time of printing, August 2009. However, the manufacturer reserves the right to make changes to design and specification without notice. You can confirm current designs, specifications, optional extras and model details by calling your nearest authorised Heatcharm dealer.
