

INTRODUCING

# PATI-O-JOE

## Outdoor Fire Tower and BBQ

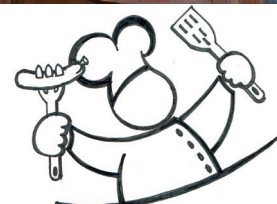

There is nothing nicer than having an open wood burning fire and the aromas emanating from BBQ cooking.

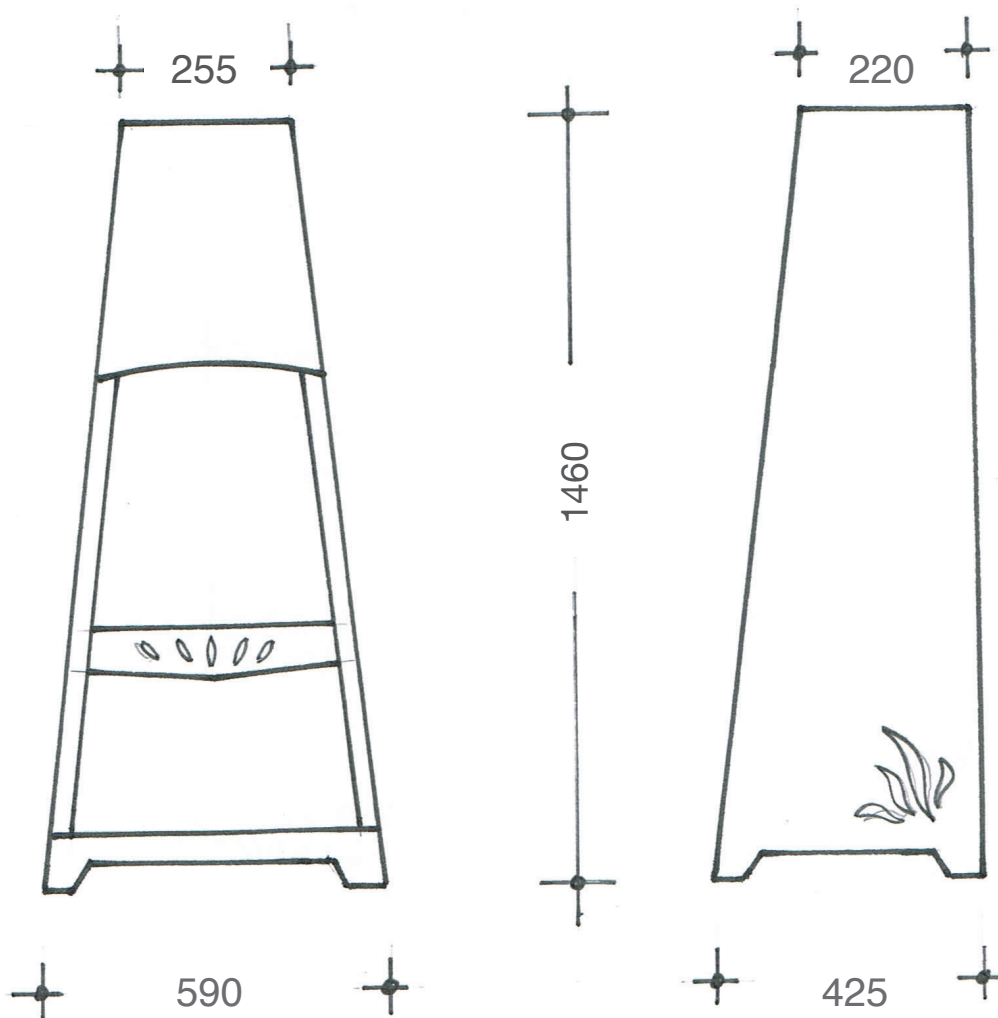

Just the thought of it immediately conjours up a mouth watering sensation that Aussies really love.

Pati-O-Joe by Firefox is a new – unique outdoor product which not only allows you to experience the warmth, charm and romance of a real open fire, but also, easily cook up some delicious and tasty meals whilst enjoying the great outdoors.

Apart from its practical attributes, Pati-O-Joe also makes an attractive garden feature. Over time it will develop a naturally oxidised patina to enhance its appearance in any outdoor living area.

PATI-O-JOE

Pati-O-Joe fire tower is manufactured from top quality P & O HA3 grade steel. It is supplied mill finish which is designed to weather over time. The removable BBQ cooking grill is manufactured from top quality 304 grade stainless steel.

The 'weathered' look of the tower can be obtained sooner by applying a solution of spirit of salts diluted with water. Refer to the 'User Instructions' for guidelines.

The unit is supplied in flat pack form ready for self-assembly - takes about 30 minutes (small shift spanner required).

Pati-O-Joe is a registered trademark of Firefox Industries Pty Ltd. All rights reserved. Firefox reserves the right to change product specifications without notice.
